ASSEMBLY INSTRUCTIONS

WORK ZONE DIVIDERS

- 1 Locate available suspension points on ceiling in relation to work zone divider suspension locations
- 2 Mount brass locators securely onto ceiling with substrate appropriate fasteners (not included)
- 3 Thread Upper Suspension Housing onto brass locator by hand only
- 4 Determine suspension points on WZD

Brass locator accepts #8 wood screws. To accommodate concrete anchors, locator must be drilled out.

- 5 Mark and drill pilot hole on WZD
- 6 Attach adjustable combination clamp to the WZD in predetermined location using the set screw supplied with clamp

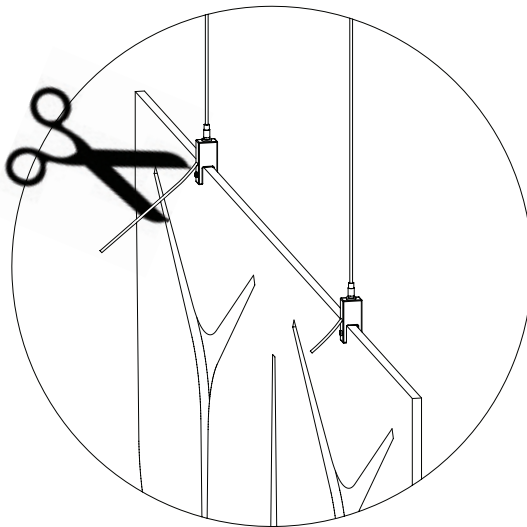

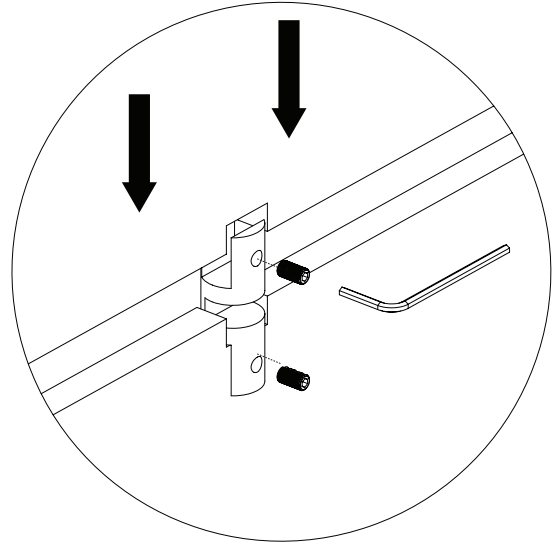

Thank you for your order!
